FOREWORD

It is on this beautiful morning after my usual walk in our pine grove that I am taking the opportunity to thank my friends and patrons for the many orders and letters of encouragement received during the past year.

These have been a strong incentive to me in continuing my work of creating new varieties of flowers, especially gladioli, which help each year to make this little corner of the world more beautiful. Many of my new varieties bear the names of friends and customers who admire this particular flower.

Do you realize that the summer of 1925 will find 40,000 new and un-named varieties of gladioli in bloom? Would you like to name one? It is your privilege. We are always glad to receive suggestions. As far as possible we allow your choice of color in the variety you name.

So it is a pleasure to present to our friends and customers this 1925 booklet. We hope it will be of service to each one, and will aid you in selecting plants and bulbs for the coming year. Our bulbs were harvested under ideal conditions last fall, and are as perfect as possible. All plants and bulbs are guaranteed true to name, and are sold with the explicit understanding that should any prove otherwise, they will be replaced or your money refunded.

We welcome visitors at all times, and it is our earnest endeavor to make Ford Gardens a place where you will like to come, and each year we try to make them more attractive and beautiful. The Pine Grove recently acquired overlooks the Gardens, and is an ideal spot for picknickers.

Last year some of our best varieties were sold out very early in the season, so would suggest that you order early. We make shipments at planting time if not otherwise instructed.

Let this be your slogan:

HOW TO GROW AND STORE GLADIOLI

Gladioli are quite hardy, and can be planted as soon as the frost is out of the ground.

In this climate we start planting about April 1st, continuing to June 20th, this giving us a continual bloom until frost.

In preparing the soil, we find the use of well-rotted manure gives the best results. (Be sure it is well rotted). It should be plowed or spaded into the soil to a depth of at least 6 inches.

In planting in drills, furrow or dig out to about 6 inches deep. Sprinkle on one side of drill a good potato fertilizer; then rake in, mixing the fertilizer with the soil, until the drill is about 4 inches deep. The potato fertilizer is simply to give the bulbs a good start, and the manure to carry out the further development. Avoid using new manure, as it is high in ammonia, making it very harmful. New manure can be used if spaded or plowed into the ground in the fall. In case you can not get well-rotted manure, sheep dressing is very good.

Many growers use a combination of potato fertilizer and bone meal, mixed in equal parts. Gladioli can be grown in this way with very good results, but the flowers do not stand up as well, the petals not having as heavy a texture as when grown with manure.

The bulbs should be planted at least 4 inches deep, and from 4 to 6 inches apart, to get best results. We plant in double rows, in drills at least two feet apart. Gladioli can be planted in beds, like tulips. In this case we advise planting a mixture of early, mid-summer, and late varieties, thus giving a continual bloom.

Gladioli grown in a hedge, with dahlias as a background, make a beautiful showing. In doing this be sure to leave a space of at least 2½ feet between gladioli and dahlias, to prevent any possible shading by the dahlias.

Avoid shady places, as gladioli grow best in the open. In case the season is dry a good watering once every ten days or two weeks is very beneficial. Soak the soil to a depth of 6 inches or more. A light watering does more harm than good, as it gives the feeders a tendency to work toward the surface, rather than downward. After a rain, or watering, the soil should be stirred to a depth of 1 to 1½ inches, to retain the moisture.

Gladioli should be dug as soon as the foliage begins to turn brown. After digging, cut the tops back close to the bulbs.

Then spread out, to a depth of not more than 2 or 3 inches, to dry, in a place where there is a good circulation of air.

In about two weeks they should be sufficiently dry so that the old bulb roots and the bulblets can be removed. After doing this, place in shallow boxes, not more than 3 inches deep. Store in a good cool, dry cellar, before there is any danger of freezing.

These directions for cleaning and storing should be followed, for if the roots are allowed to stay on too long, or stored in boxes which are too deep, the bulbs are liable to rot, or become diseased.

This is a very brilliant red in color, with a thread of gold around the edges of petals. A most unusual and very attractive variety. \$1.00 *each*.

PRIMULINUS HYBRIDS

These hybrids, gained by crossing the species Primulinus with the larger varieties of the Gandavensis type, have retained all the daintiness and graceful form of their Primulinus parent, even to the "hood" formed by the drooping of the upper petal, and have an added beauty

of exquisite coloring, from the softest primrose to a beautiful rose. **5c each; 50c dozen; \$3.50 hundred.**

VIEW OF OUR EXPERIMENTAL GARDEN

CHOICE GLADIOLI

This collection contains 22 of the most recent creations of leading Gladiolus growers.

We will ship this collection, 22 varieties, value \$5.90 for \$5

ALBANIA

One of the late creations—a most pleasing white variety. The flowers are large—and slightly ruffled—one of the best new whites. **25c each; \$2.50 dozen.**

ALBERTA

One of our new creations. One of the finest lavender rose shades in existence. No col-

lection is complete without this variety. Named in honor of Mrs. Alberta Morse, Middleboro, Mass. **25c each; \$2.50 dozen.**

DIANA

(New). Wonderful shade of deep rich mellow blood red. This variety has every good quality that goes toward the making of a high grade Gladio-

"Better Flowers for 1925"

lus. Those who know this variety best, unhesitatingly pronounce it the finest red *Gladiolus* ever originated. It is rapidly becoming the favorite red variety. *25c each; \$2.50 dozen.*

DIENER'S AMERICAN

BEAUTY

Brilliant American Beauty color with creamy-yellow throat. *75c each; \$7.50 dozen.*

EVELYN KIRTLAND

The flowers are a beautiful shade of rosy-pink, darker at the edges, fading to shell-pink at the center, with brilliant scarlet blotches on lower petals. Entire flower showing a glistening, sparkling luster. *15c each; \$1.50 dozen.*

E. J. SHAYLOR

A beautiful pure deep rose pink; large blossoms. A leader in the rose-pink class. *25c each; \$2.50 dozen.*

EUROPA

Snowy white, without any color mark whatever. Large flowers, compactly placed, and many open. One of the finest whites in existence. Especially valuable for florist's work. Stock too scarce to become common very soon. *20c each; \$2.00 dozen.*

GOLDEN MEASURE

This is in my opinion the best yellow variety ever introduced. The flower is large, of a deep pure yellow, and is produced on stalks that often reach a height of 4½ feet and over. A grand variety of unusual merit. *35c each; \$3.50 dozen.*

IDA VAN

A beautiful deep salmon-red,

or flaming orange pink. *15c each; \$1.50 dozen.*

LE MARSHALL FOCH

The largest light pink *gladiolus*, sometimes reaching seven inches in the eastern states. *15c each; \$1.50 dozen.*

LOUISE

Clear pure lavender of a bluish tinge; has no magenta or purple in it, and this makes it the finest lavender yet produced, nearly the same shade as *Iris Pallida Dalmatica*, which is enough said. *25c each; \$2.50 dozen.*

MAINE

One of the most beautiful white *Gladioli* in existence, flowers well placed on tall straight stem. The buds are of a very light yellow color, turning into pure white when in full bloom. *35c each; \$3.50 dozen.*

MARY PICKFORD

Color a delicate creamy-white, throat soft yellow. *25c each; \$2.50 dozen.*

MISS AGNES LINNEHAN

One of our latest creations. A most wonderful cerise pink shade—very showy. Everyone entering our gardens admires this variety. Named expressly for and with permission of Miss M. Agnes Linnehan of the West Elm Flower Shop, Brockton. *25c each; \$2.50 dozen.*

MISS HELEN FRANKLIN

Recognized as the leading white; florists' variety; an early forcer; blooms from small bulbs outside. *15c each; \$1.50 dozen.*

MRS. DR. NORTON

Color white, the edges suffused with soft La France pink. The three lower petals have a blotch of sulphur yellow, stained at the base with fine specks of tyrian-pink. 20c *each*; \$2.00 *dozen*.

NORA

Light violet blue, deeper blue on lower petals. Dainty and charming. 20c *each*; \$2.00 *dozen*.

PEACH

New—A late variety cream-white with a peach colored throat. Very attractive. 15c *each*; \$1.50 *dozen*.

PRIDE OF GOSHEN

Ruffled—Pale flesh, tinted very delicate Rose Eglantine with a golden sheen; throat washed faintly with yellowish-buff. Lower petals broad stripe of cochineal-carmine, and a few delicate pencilings of the same color. 15c *each*; \$1.50 *dozen*.

ROSE ASH

New—This variety is also known by the name of Ashes of Roses. A new color in Gladioli. This variety attracts the immediate attention of all who see it. It is a very tall grower and the long spike well filled with large pastel blooms is a marvel of great beauty. 50c *each*; \$5.00 *dozen*.

SWEETHEART

This is an exceptionally beautiful variety. The color is a light cream, with golden yellow shading on lower petals, overlaid with faint rose feathering well down in the throat. Although it is a primulinus hybrid it is large and has several flowers open at a time. 35c *each*; \$3.50 *dozen*.

THOMAS T. KENT

Rose-pink with ruby running through the center of each petal. 35c *each*; \$3.50 *dozen*.

MIXED GLADIOLI

50c per dozen; \$3.50 per hundred

Our mixture contains a well-balanced assortment of early, mid-summer, and late varieties. If you have only a limited space, we advise growing a mixture, as this insures a continual bloom of this grand flower, from early summer till frost. In colors, this mixture includes every magnificent and gorgeous combination conceivable.

HOW TO GROW AND STORE DAHLIAS

Unlike the gladiolus, the dahlia does not require too rich a soil. We find a good potato fertilizer the best. Heavy fertilization causes plants to run to foliage rather than bloom.

Tubers should be planted at least 4 to 6 inches deep, and 2 feet or more apart. Mix well in the soil of the hill

a small hand-full of fertilizer; then place the tuber flat down. Do not stand tuber on end.

If season is dry, a good watering once every week or ten days is very beneficial. Soak the soil to a depth of at least 6 inches. A light sprinkling of water is more harmful than beneficial, for it gives the feeders a tendency to work toward the surface, rather than down. After rain, or watering, the soil should be stirred to a depth of from 1 to 1½ inches to retain the moisture. It is a good plan to hill the plants, same as potatoes.

In planting dahlias, select a sunny location, for they do not thrive in the shade.

In the fall, the tubers should be dug and stored in a cool, dry cellar, having an even temperature of between 35 and 40 degrees.

As soon as dug in the field, cut the stalks about 2 or 4 inches from the crown. Pack in boxes or bins, with the crown down, to prevent the moisture in the stalk from working down into the tubers, as this will cause rot.

AN ATTRACTIVE CORNER OF OUR GARDENS
GROVE IN BACKGROUND

"Better Flowers for 1925"

Care should be taken to keep the tubers from too much air circulation or heat, as this is liable to cause them to dry and shrivel. For small lots we find it the best plan to pack tubers in dry sand.

In the spring, divide the clumps in such a manner that each division includes a part of the crown having at least one eye. These eyes, or sprouts as they are sometimes called, will begin to show up in the spring, thus making dividing easy.

FORD'S NOVELTIES

10 Unnamed Dahlias for \$1.00!

Last year we grew over 3,000 dahlias from seed, but in the rush of harvesting were unable to name any before frost.

Therefore we are offering them to you in all shades and forms:—singles, decorative, peony flowered, cactus, etc. You may name them if you choose.

Each bulb sent out will be the only one of the kind—over 3,000 varieties, and no two alike!

DAHLIAS

During recent years the Dahlia has rapidly grown in favor with its many new and improved forms and shades.

For hedges and in groups they cannot be beat. They also make a fine background for other plants.

NEW AND SUPERB DECORATIVE DAHLIAS

This collection of 23 varieties, value \$30.75, for \$25.00

ARCTIC

A new pure white decorative type—immense size—commonly eight or ten inches in diameter—without disbudding or special care. \$1.00 each.

BREAK O'DAY

A new giant flowered dahlia that should be in every collection. Its immense size is relieved by a beautiful formation and its soft color, a deli-

cate clear sulphur yellow, tinting to sulphur white at the tips. The petals are of great substance, illuminated by a satiny sheen, giving the flowers a satiny appearance. A strong vigorous grower and free bloomer with long erect stems. An acquisition. 50c *each*; \$5.00 *dozen*.

DARLENE

One of J. K. Alexander's latest creations and highly recommended by that noted grower. In color it is an exquisite shade of shell pink with a dainty blending of white at the center. Unquestionably one of the best peony flowering varieties to date. 50c *each*; \$5.00 *dozen*.

INSULINDE

A deep saffron-yellow, shading to russet-orange. One of the best of Holland introductions. The petals are twisted and curled, the flowers exceptionally large, and the stems very long. \$2.00 *each*.

ISABEL STREET

A grand new variety, that has attracted the greatest attention of visitors at our farms and whenever exhibited. The flowers are large, extremely full to the center, while the outer petals reflex to the stem. Color at base bright yellow, shading to bright rose red, with white tips; reflex pale pink. The flowers are of heavy texture and borne facing on long cane stiff stems. The plant is strong, vigorous, of upright branching habit, 5 to 6 feet high, producing the big, long stem bloomers freely and continuously. A wonderful ex-

hibition and commercial variety that should be in every collection. An acquisition to every garden. \$2.00 *each*.

JANE SELBY

A new California dahlia, on very long stems of a pleasing mauve pink; very large bloom of great depth. \$1.00 *each*.

JUDGE MAREAN

A beautiful blending of red, yellow, orange, salmon-pink and gold. The flowers are very large and are borne on strong, stiff stems. \$1.50 *each*.

L. KRAMER PEACOCK

The ideal white decorative for garden and cutting. The flowers are large, of perfect form, pure white and of great substance, keeping a long time after being cut. The plant is a strong vigorous grower of dwarf branching habit, a quick free grower and profuse bloomer. 50c *each*; \$5.00 *dozen*.

MILLIONAIRE (Stillman)

Delicate lavender pink, shading to white. Very large flowers. 75c *each*.

MINA BURGLE

One of the best, rich cardinal red, of fine form and produced freely on long stiff stems. Plant is a strong, vigorous, upright grower and profuse bloomer. 50c *each*; \$5.00 *dozen*.

MRS. CARL SALBACH (Salbach)

Beautiful mauve pink, shading to white at center. Flowers are large and fine for exhibition. \$1.00 *each*.

MRS. C. B. GITHENS

A distinctly light and airily formed flower that coupled with its chaste coloring appeals. Color, rose pink, tipped white, petals long, pointed, reflexed and slightly whorled, giving it a most artistically distinct formation and effect. Plant is a sturdy grower of branching habit, with flowers held erect on cane stiff stems. An acquisition as a cut flower and for the garden. \$3.00 *each*.

MRS. F. F. SCHOCK

Large, regular, perfect form; inner petals cupped, outer flat and reflexed in most approved manner. Color picric yellow at base of petals, blending to almost pomegranite purple at the tips. The plant is strong, vigorous and an early, free and continuous bloomer on long stiff stems. \$1.00 *each*.

MRS. GEORGE STUMPP

(Alexander). A very large flower of an exquisite blending of amber and buff. Stems very long and as stiff as cane. One of the favorite autumn shades. \$2.00 *each*.

MRS. I. DE VER WARNER

One of the best of decorative dahlias. In color, a deep mauve pink. Stems long and stiff, making it an excellent variety for cutting. \$1.50 *each*.

MRS. J. HARRISON DICK

One of the most valuable new varieties of recent production. Color, citron yellow at center, outer petals suffused and overlaid salmon pink; a lovely and effective combination, especially under artificial light. The plant is a wonder-

ful grower, of medium height and branching habit, producing perfect flowers in greatest profusion on long, stiff stems. The flowers are medium to large, 5 to 7 inches in diameter and are held facing on the cane stiff stems. Valuable for exhibition, cutting and the garden. \$1.00 *each*.

MRS. WM. J. ROWE

(Slocombe). A gigantic flower of perfect formation, one of the favorite autumn blendings now so popular. Lemon-yellow, blending to apricot yellow, with occasional shadings of salmon on the outer petals. An exceptionally fine variety for garden or exhibition purposes. \$2.00 *each*.

NOIR ALVAREZ

(Nonin). An exceptionally fine variety of large size, which is always a continuous and abundant bloomer. In color, it is a very rich deep velvety ox-blood red, the best of its color to date. The plants grow tall, making a vigorous growth and producing their flowers well above the foliage. Highly recommended for cut flower, garden or exhibition purposes. \$2.00 *each*.

PATRICK O'MARA

This sensational new decorative variety was awarded a Gold Medal by the American Dahlia Society as the best Autumn shade variety in existence. The color is an unusually soft and pleasing shade of orange-buff, slightly tinged with Neyron rose. It is very large, 7 to 9 inches in diameter and borne on long, strong, erect stems. \$1.00 *each*.

PAUL MICHAEL

Apricot with bronze shadings. Flowers are very large, and stems stiff and long. \$2.00 *each*.

PRIDE OF CALIFORNIA

(Lohrmann). The finest of the dark crimson Decorative Dahlias for all purposes. An exceptionally large flower making it the best possible for exhibition. It produces its gigantic flowers on long stiff stems and very abundantly, making it an ideal garden and cut-flower variety. In warm climates it does very well, and can always be depended upon.

The plant is a tall vigorous grower, and produces its flowers on stems as stiff as cane. \$1.00 *each*.

ROSE GEM

One of the most attractive delicate pink decorative Dahlias in existence. \$1.00 *each*; \$10.00 *dozen*.

SARAH HARLEY

Decorative. A superb, new variety that has made a place for itself in the cut flower market. Color rose-pink tipped white. Flowers large and held erect on long cane stiff stems. \$2.00 *each*.

BETTY AUSTIN

A lovely variety that is in a class by itself. Color yellow at base of petal, blending to rosy carmine and rose, yellow at tips; reflex rose. A combination at once pleasing and effective. The flowers are of good size and splendid form, borne erect to facing on long stiff, slender stems, well above the foliage. An early, free and continuous bloomer. The plant is dwarf, 3 to 4 ft. high, of branching habit. A wonderful commercial cut flower and an ideal garden plant. It is entirely distinct and will find its way into every collection. \$3.00 *each*.

BIANCA

New, of large size and fine form. A vigorous grower; color beautiful rose lilac with flowers on strong erect stems; white shadings. \$1.00 *each*; \$10.00 *dozen*.

CLAIRE KULP

19-71. Hybrid Cactus. A cross of Kalif and Mrs. C. H. Breck. An entirely distinct acquisition having the size of Kalif on a rigid, upright, but slender stem. Color rich cardinal red shaded garnet, yellow at base and at tip of petals. Plant is strong, vigorous, 5 to 6 feet high and a free and continuous bloomer. The first flowers

are solid red, midseason like above and late, for it blooms until frost, show more yellow at base and tip of petal. \$2.00 *each*.

FRANCES WHITE

A splendid new white cactus of exceptional form, with long, narrow incurved and twisted petals. Large size, 5 to 7 inches across, borne on long graceful stems. Color, pure white, shading to sulphur at center. An early and extremely profuse bloomer. One of the best for garden and exhibition. 35c *each*; \$3.50 *dozen*.

F. W. FELLOWS

Flowers of immense size. Composed of numerous long, narrow, incurved petals of a lively orange scarlet. This is one of the largest and finest Autumn shade varieties. Should be in every collection. 50c *each*; \$5.00 *dozen*.

GEORGE WALTER

One of the largest dahlias ever introduced. Very free flowering. A pleasing shade of salmon pink shading to yellow at base. \$1.00 *each*.

GOLDEN WEST

An American cactus of great merit because of its size, coloring, stem and keeping qualities when cut; the color is uncommon, a striking shade of old gold. 50c *each*; \$5.00 *dozen*.

KALIF

This is a giant flowering variety. A truly majestic flower, frequently 8 or 9 inches in diameter of perfect cactus form. The color is pure scarlet. 75c *each*; \$7.50 *dozen*.

MARY DORR

Cactus, deep amaranth pink, with white tips and center. The flowers are large, with long narrow, pointed, incurved petals. Splendid bloomer on fine stems. Exhibition, cut flower and garden variety. This is a great improvement on Marg. Bouchon, which variety it will supersede. \$2.00 *each*.

MRS. LEO NIESSEN

One of the very best commercial cut flowers. Color, yellow at base, suffused and heavily tipped a rich bronzy red. It is one of our very best cut-flower sellers and a wonderful garden plant. As we have a fine stock we can offer them at \$1.00 *each*.

MRS. S. L. AUSTIN

PRESIDENT HARDING

(Alexander). A large abundant flowering soft yellow. *50c each; \$5.00 dozen.*

PRISCILLA

The most beautiful of all White Peony Dahlias. The flowers are snow white, and most beautifully formed, the snow white contrasting with the rich yellow center. The large flowers are produced profusely and held erect on long slender but cane stiff stems. Especially fine for all floral work, bouquets and the garden. \$1.00 each.

VIRGINIA CHAMBERS

Large maroon flower on long stiff stems. A prolific bloomer. 25c each; \$2.50 dozen.

ROSALIA STYLES

Colossal Peony. The largest and best pink of this class. Beautiful form, immense size, stiff stems, strong, vigorous, sturdy plant, a free and continuous bloomer, while last but not least, a wonderful live lus-

trous color — bright tyrian pink tipped lighter; reflex pink. The plant is a strong, vigorous, sturdy grower, of medium height (5 feet) branching and producing the giant flowers freely on long cane stiff stems. A superb cut flower variety on account of its clear color, good stems and remarkable shipping and keeping qualities. The early flowers are quite full to the center on first opening, giving good depth. On the exhibition table the 8 to 9 inch flowers are held erect without support by their own stems. The plant is simply perfect for the garden. Has attracted the greatest attention wherever seen and will be universally grown. \$3.00 each.

ROSE PINK CENTURY
(Peacock) Single

Large, deep pink in color. Stems long and very strong.

POMPON DAHLIAS

THE GEM

The large cream dotted with carmine-green foliage, 4½ feet.

THE PRESIDENT

A great canna, immense, bright red flowers in fine clus-

ters without a doubt the most sensational introduction of recent years. Green foliage, 4 feet.

WINTZERS COLOSSAL

(Orchid flowered). Flowers frequently eight inches in diameter, bright scarlet, green foliage; five feet.

WYOMING

(Orchid flowered). Large orange flower, effectively contrasting with upright, rich bronze foliage—six feet.

PEONIES

Few flowers have become more popular in recent years than the peonies. Below we list 10 of the most popular medium price standard varieties. 75c each.

DELICATISSIMA

Medium to large rather flat flowers of soft pink changing to nearly white. Early.

FELIX CROUSSE

Extra large blooms; quite fragrant. One of the most brilliant red varieties. Strong, vigorous plants.

FESTIVA MAXIMA

This is probably the best of the low priced varieties. It produces extremely large white

flowers, flecked with crimson in the center. The plant makes a tall, strong growth, and produces its blooms early in the season. Some of the most recently introduced varieties, which sell for \$50 or more, are in no way superior to this sort.

LADY BRAMWELL

Pale lilac-rose, the center petals creamy white at the tips, and sometimes flecked with crimson. Grows vigorously and blooms freely. Early mid-season.

LOUIS VAN HOUTTE

Brilliant velvety cerise-red.

MADAME DE VERNEVILLE

Large full bloom; guard petals pure white, center blush fading to white, prominent carmine flecks. Extra early.

MODESTE GUERIN

Large globular blossoms of a bright solferino pink, very vigorous and extra good as a cut flower. Midseason.

MONS. JULES ELIE

An extra fine early sort of medium fragrance. The blooms

are pale lilac-rose, shading to rich amber at the base. The plants made a strong growth, and are generally of medium size. One of the most popular varieties.

RICHARDSON'S PERFECTION

Large flowers; light flesh; white center.

RUBRA SUPERBA

Deep crimson blossoms, large and compact. The best very late crimson variety.

HARDY HERBACEOUS PERENNIALS

ARTEMISIA LACTIFLORA

(Hawthorn-Scented Mugwort)

This splendid perennial is comparatively little known, though not a recent introduction. It is of the strong free growth, the stems being straight and from 3½ to 4½ feet high, terminating in panicles of the creamy-white, Hawthorn-scented flowers. Blooming season, September and October. 25c each; \$2.50 dozen.

AQUILEGIA or Columbine

Mixed long-spurred Hybrids. The plants are strong and thrifty; flowers large size, varying in colors; charming tones of cream, pink, lavender, blue, white, red, etc., scarcely any two being alike. 25c each; \$2.50 dozen.

BUDDLEIA or Butterfly Bush

VARIABILIS MAGNIFICA

One of the most popular of hardy plants. Has long flower spikes, composed of many small florets, similar to the common lilac. Very fragrant. Color a beautiful lilac, shading to lavender. Plants are a mass of bloom from June till frost. Very hardy, and most satisfactory to grow, as plants increase in year in size and vigor. 30c each; \$3.00 dozen.

CAMPANULA MEDIA

(Canterbury Bells). Bell-shaped flowers, dark blue, light blue, and white. Biennial. 2 to 3 feet. July and August. In separate colors, white pink, lavender, or mixed, 25c each; \$2.50 dozen.

COREOPSIS

Grandiflora. An improved variety with large, bright yellow flowers; one of the best hardy plants. Fine for cut flowers. 25c each; \$2.50 dozen.

DELPHINIUM

Belladonna. They are our best blue cut flower, are perfectly hardy and established plants produce a number of spikes giving three crops during the season. 25c each; \$2.50 dozen.

DIANTHUS HEDDEWICH

Japan Pink. Flowers are very large and of the most brilliant colors, varying from pure white to the richest crimson, while many are beautifully laced or striped. For bedding purposes they are of immense value during the entire summer, and they also furnish elegant flowers for bouquets. Mixed colors. 15c each; \$1.50 dozen.

DIGITALIS

Foxglove. These old garden favorites are stately and elegant in summer when they produce bold masses of leaves and flower-spikes. White or Rose. 25c each; \$2.50 dozen.

GOLDEN GLOW

An old garden favorite, attaining a height of four to five feet. Produces masses of double, golden yellow flowers. 15c each; \$1.50 dozen.

HARDY CHRYSANTHEMUMS

POMPONS—These are varieties that produce a profusion of blossoms, about an inch in diameter, and of very regular, almost globular form.

BABY

A clear bright yellow. Large clumps 25c each; \$2.50 dozen. Small plants 15c each; \$1.50 dozen.

BETH

PINKS (Hardy Garden)

Without the spicy fragrance of the hardy Pinks a garden is incomplete. Their perfect form and rich coloring make them great favorites for summer bouquets. June. Strong field plants. Large clumps. 25c *each*; \$2.50 *dozen*. Small plants 15c *each*; \$1.50 *dozen*.

PLATYCODON

(Balloon Flower)

Blooms constantly in July until late in September; flowers large, bell-shaped. Of extremely rapid growth, doing well in any soil. Perfectly hardy, making a dense branching bush 2 to 3 feet. 25c *each*; \$2.50 *dozen*.

PYRETHRUM HYBRIDUM

(Single Flowering)

This old-fashioned perennial is easily grown in any good garden soil, requiring only good drainage and full exposure to the sun. An annual top dressing of well-rotted manure is very beneficial. Blooming season June, but if the first stems are removed as soon as the flowers have faded, will continue to flower thru the summer and autumn months. Colors include shades from red thru rose to pure white. We offer these in mixed colors only. 25c *each*; \$2.50 *dozen*.

SCABIOSA CAUCASICA

(Blue Bonnet)

One of the best summer-flowering perennials. Color, a beautiful soft lavender-blue. The dainty flowers are produced on stems 18 to 24 inches high. Flowering season June to September. A fine variety for cutting. 50c *each*; \$5.00 *dozen*.

DIANTHUS BARBATUS

(Sweet William)

These are excellent for border plants and should be in every garden. Scarlet Beauty. Newport Pink, White Beauty and mixed; large clumps. 25c *each*; \$2.50 *dozen*. Plants 15c *each*; \$1.50 *dozen*.

PANSIES

Our pansies are far superior to the common large flowered or bedding strains. The flowers are much larger, and of heavier texture. What is more beautiful than a pansy bed in early spring or late fall, when there are no

other flowers in bloom? We specialize in pansies, and our plants are in a class by themselves.

BLACKBERRY PLANTS

THE FORD (See cut on opp. page)

We are offering for the first time this new variety, created by us in 1921. It is a seedling from the Blower blackberry, and is much more hardy. The fruiting season is much longer; in fact, it is really an everbearing variety. This year berries were picked from July 25th until frost. The fruit is much larger and better formed than the Blower. Berries are a deep, glossy black, with solid, rich meat, making it excellent for shipping and keeping. For canning it is unsurpassed. This berry took first prize at the Massachusetts Horticultural Society Exhibition, in competition with other varieties grown throughout New England. (See cut above). Stock limited.

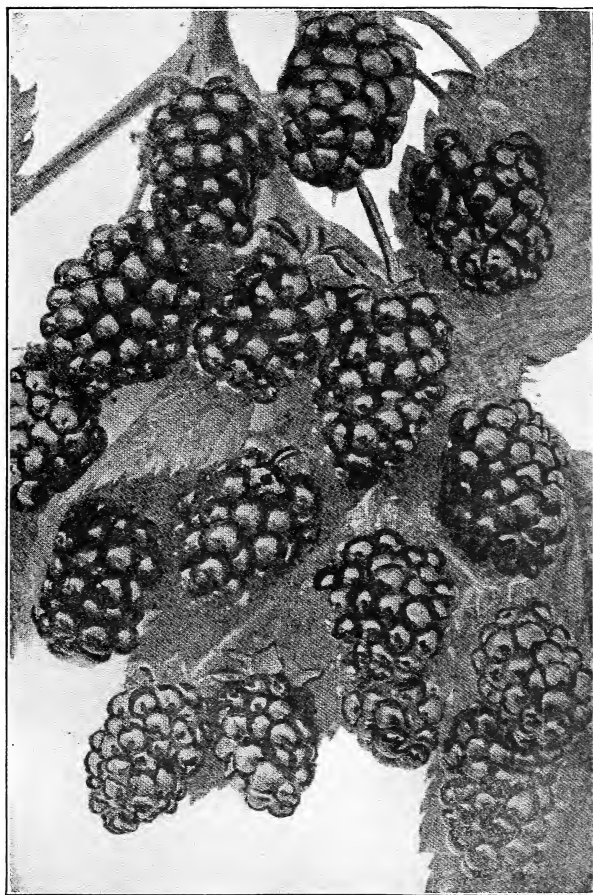

Roots, 25c each; \$2.50 per dozen

BLOWER

A mid-summer variety fruit, very large and of superb quality enormously productive and very hardy, long fruiting season.

15c each; \$1.00 dozen; \$5.00 per 100. 25 at \$1.00 rate
